

**AIB Instructor-Led Online Schedule
January 2012 through April 2012**

How do they work?

AIB Online Courses are instructor-led classes that are delivered over the Internet. Each course has a start and an end date and students are required to complete one or more lessons each week. Each lesson typically consists of reading a chapter in the textbook or online, completing a self-check quiz online and completing an assignment that is submitted electronically to the instructor. Many of the courses have a midterm and final exam. Students do not need to login at a certain time or date, but must make sure they read the assignments and post homework within the deadline given. Typically, students should be logging in at least twice a week.
